Summary

Full-stack developer with hands-on experience in building scalable web applications using React, Python, and REST APIs, with a strong focus on problem-solving and system design. Experienced in working across frontend, backend, and database layers, with practical exposure to AI-driven applications, automation workflows, and cloud technologies. Proficient in Agile SDLC, debugging, and performance optimization, with the ability to quickly adapt to new technologies and contribute to real-world engineering solutions. Passionate about leveraging AI and modern development practices to build efficient, user-centric systems.

Experience

Software Development Intern *Femira (by Meraji), Indore*

Jan 2026 – Mar 2026

React.js, Next.js, WordPress, HTML, CSS, SQL

- Developed and optimized 10+ frontend and backend features, improving application performance and reducing UI latency by approximately 25%.
- Collaborated in Agile SDLC cycles including requirement analysis, debugging, testing, and deployment workflows.
- Designed and integrated REST APIs for handling dynamic user requests and backend data flow.
- Automated repetitive workflows, reducing manual effort by nearly 30% and improving system efficiency.

Projects

Project Synapse – AI Powered Delivery Platform [\[GitHub\]](#) [\[Live\]](#)

Aug 2025 – Oct 2025

React.js, Next.js, Tailwind CSS, REST APIs, SQLModel, Leaflet.js

- Built a full-stack delivery platform supporting 500+ simulated users with real-time order tracking.
- Integrated AI-based chatbot workflows, reducing manual issue handling by 30% and improving response efficiency.
- Designed reusable React components, improving UI scalability and reducing development time by 20%.

MEDIBOT – AI-Enabled Teleconsultation System [\[GitHub\]](#)

Jul 2024 – Aug 2024

React.js, Next.js, Tailwind CSS, AI/NLP concepts, REST APIs

- Built a responsive teleconsultation platform supporting 100+ simulated users for healthcare access.
- Implemented symptom-based workflows, reducing navigation time by 25% and improving usability.
- Optimized UI performance and responsiveness, improving load time by 15%.

Women's Day Interactive Website [\[GitHub\]](#) [\[Live\]](#)

Mar 2026

React.js, Tailwind CSS, AI/NLP, REST APIs

- Designed and developed an interactive website using HTML, CSS, and JavaScript, ensuring clean structure and maintainable code
- Implemented engaging animations, transitions, and fully responsive design for seamless performance across devices
- Enhanced user engagement through creative UI elements, intuitive layouts, and improved user experience (UI/UX)
- Optimized website performance by improving load speed, structuring content effectively, and applying basic SEO practices

Technical Skills

Programming Languages: Python, Java, JavaScript, TypeScript

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Responsive UI Design

Backend Development: FastAPI, Node.js, Express.js, RESTful APIs, API Integration, JSON Handling

Databases: MySQL, MongoDB, SQL

Cloud & Deployment: AWS, Google Cloud

AI & Data: Generative AI, LLMs, NLP, LangChain

Tools & Version Control: Git, GitHub

Certifications & Achievements

• AWS Certified Cloud Practitioner

Jan 2026 – Jan 2029

• Oracle OCI Generative AI Professional

Oct 2025 – Oct 2027

• Introduction to Generative AI (IBM) al-level teams, demonstrating strong problem-solving and competitive coding skills.

• General Secretary, Edu4U Club – Led a team of 50+ members, organizing technical events and managing student engagement initiatives.

• Student Coordinator, TCS Recruitment Process – Assisted in candidate management, coordination, and understanding of hiring workflows.

Education

Vellore Institute of Technology, Bhopal

2022 – 2026

B.Tech in Computer Science and Engineering

CGPA: 7.84
